Glossary of Terms

Ability to Benefit

Please see entry for Student Eligibility Code.

Academic Year

A period that begins on the first day of classes and ends on the last day of classes or examinations and that is a minimum of 26-30 weeks (except as provided in 34 CFR 668.3) of instructional time during which, for an undergraduate educational program, a full-time student is expected to complete at least:

- Twenty-four semester or trimester hours or 36 quarter hours in an educational program whose length is measured in credit hours; or
- Nine hundred clock hours in an educational program whose length is measured in clock hours.

See 34 CFR 668.2 for additional information. Academic years may be scheduled or borrower based. The annual loan limits for a Direct Loan apply to an academic year.

Academic Year Length

This is the length of the student's academic year calculated using the academic year begin and end date as reported by the school on the common record. It does not exclude breaks.

Account

When a record is submitted to COD, the data is organized by student and/or borrower on the COD database. This data is organized into logical groupings called Accounts.

Actual Disbursement Record

A disbursement record submitted to the COD System in order to request or substantiate funding with a disbursement release indicator equal to 'True'. Actual Disbursement Records post to a student/borrower's award (loan or grant). They either release funds available to a school via draw down or they substantiate cash already made available to the school.

Actual Non Credential Teacher Certification Subsidized Usage Period

The period of time used by the student related to the reported loan. This is returned only when the special program is reported as a non credential teacher certification program and the reported loan has at least one actual disbursement.

Actual Subsidized Usage Period

The period of subsidized aid covered by this award if it has at least one actual disbursement.

Additional Eligibility Indicator

A student may receive up to two Pell Awards within a single award year for the 2009-10 and 2010-11 award years only. A student is eligible for an additional Pell Award if he meets the criteria for receiving up to double the Scheduled Federal Pell Grant (SFPG) according to the Higher Education Opportunity Act of 2008. The Additional Eligibility Indicator indicates whether a student is eligible for an additional Pell Award.

Administrative Cost Allowance (ACA)

The Department of Education reimburses institutions participating in the Federal Pell Grant Program \$5 for unduplicated recipients at the school who receive a Pell Grant. This is money paid to schools to offset some of the cost of delivering financial aid to students. This amount is based on the number of Pell recipients reported by the school, including students who withdrew from the school or were transferred, even if all Federal Pell Grant funds were recovered.

Administrative Relief Request

See Extended Processing.

Aging of Drawdown

The process of tracking the time elapsed from the date funds were drawn down to the date a school fully substantiates the drawdown by submitting actual disbursement records.

Agreement to Serve (ATS)

The TEACH Grant Agreement to Serve (ATS) is a legal document in which the recipient promises to teach in a high-need field at a low-income school for four years within an eight year period. The ATS explains that if the teaching service is not completed, the TEACH Grant becomes a Direct Unsubsidized Loan and the recipient promises to repay the loan(s) and any accrued interest and fees to the U.S. Department of Education. A new TEACH ATS must be completed each award year.

Anticipated Disbursement Record

Disbursement information submitted on either an Edit Only record or an Origination Record that is not intended to request or substantiate funding. An anticipated disbursement does not post to a student/borrower's award (loan or grant). Users submit anticipated disbursement information on the Common Record with a Disbursement Release Indicator omitted or set to False.

Anticipated Non Credential Teacher Certification Subsidized Usage Period

The period of time used by the student related to the reported loan. This is reported only when the special program is reported as a non credential

teacher certification program and the reported loan has only anticipated disbursements.

Anticipated Subsidized Usage Period

The period of time used by the student related to the reported loan. This is returned only when the reported loan has only anticipated disbursements.

ATS ID

The unique identifier printed on the ATS. It is made up of a student's SSN, 'C' – for TEACH, the last two digits of the award year, the first six digits of a school's OPEID, and a three-digit sequence number.

Example: 123456789C09012345001

Attended School

The school or campus where the student attends class for which Federal Financial Aid funds are being used.

Available Balance

Funds available to draw down.

NOTE: Amounts actually drawn down should meet immediate need as defined by regulatory requirements.

Award

An Award refers to the amount of money a student and/or borrower is eligible to receive for a period of time. Awards are designated by program (e.g., Direct Loan or Pell Grant), by institution, and by award year.

Award Year

For Pell Grant, the twelve-month period beginning on July 1st and ending June 30th of the following year. This also applies to what has previously been called the Direct Loan Program Year, which is the period of time (approximately 2 1/2 years in length) in which schools could potentially process a Direct Loan for a particular Award Year.

Batch

A group of records submitted together. Batches can consist of one or more records. Users can submit data for students in a file called a batch. The batch contains a network header record, the Common Record with one or more students / awards / disbursements and the network trailer record. Periodic sweeps of a school's SAIG mailbox are performed to pick up these batches and send them to the COD System for processing.

Booked Loan/ TEACH GRANT

A loan becomes booked when COD has a loan origination record, an MPN was received and has linked to the loan, and an accepted actual disbursement record has been accepted. At this point loan information can be forwarded to the Servicer and loan servicing processes initiated.

A TEACH Grant becomes booked when COD has accepted the TEACH Grant origination record, an ATS was received and has linked to the grant, and an accepted actual disbursement record has been accepted.

Calculated Published Program Length Years

The calculated published program year length in academic years. When the published program length is submitted as weeks or months, the COD system converts the length to academic years.

Call for Cash

Action taken by FSA to request a return of cash received by a school. If funds are not returned by the specified date, the balance will be referred to the Department's Deb Management Group.

Campus-Based Programs

The term applied to three federal Title IV student aid programs administered on campus by eligible institutions of postsecondary education:

- Federal Perkins Loan Program
- Federal Work-Study (FWS) Program
- Federal Supplemental Educational Opportunity Grant (FSEOG) Program

Cash at School

Cash that a school has received, either through self-initiated drawdown or pushed to the school's bank account, minus returned cash.

Central Processing System (CPS)

This is the Department of Education system that processes information from the Free Application for Federal Student Aid (FAFSA®), calculates the Expected Family Contribution (EFC) for each applicant, prints the Student Aid Report (SAR), and transmits Institutional Student Information Record (ISIR) data electronically. Data from the CPS system is used by the COD System to verify eligible students.

Common Origination and Disbursement (COD) Process

The COD Process is a common process integrated with a system designed to support origination, disbursement, and reporting of the Pell Grant, TEACH Grant and Direct Loan programs.

Common Origination and Disbursement (COD) System

The COD System is a technical solution designed to accommodate the COD Process for the Pell Grant, TEACH Grant and Direct Loan programs.

Common Record

The Common Record is a data transport mechanism exchanged by trading partners participating in Federal Student Aid. The Common Record is a document formatted in Extensible Markup Language (XML).

Common School Identifier (CSID)

See Routing Identifier.

Complex Element

An XML Element that contains other elements. It may also contain text, but it isn't required. Elements contain other elements in order to provide for logical groupings of data. For example, an applicant's name information can be represented by the following XML:

```
<Name>
  <FirstName>Heidi</FirstName>
  <LastName>Smith</LastName>
</Name>
```

Through the nesting of first name and last name information in the Name complex element, the information is logically grouped and the meaning of the group is clear. Complex elements can contain other complex elements. So, many levels of nesting and organization are possible.

Consolidation Loan

A loan that combines multiple federal student loans into a single loan with one monthly payment.

Correction Edit Codes

Applies to users in the Pell Grant program only. For schools that have selected to have their Pell Grant data corrected rather than rejected, the COD system automatically corrects the data and sends a response to the school that submitted the record indicating that a correction took place, the element corrected, the original value, and the corrected value. Edits that can be corrected, rather than rejected, are indicated with a C/R in the *Volume II, Section 4 - Edits* codes in the *2012-2013 COD Technical Reference*.

Cost of Attendance (COA)

Tuition and fees, room and board expenses while attending school, allowances for books and supplies, transportation, loan fees (if applicable) dependent child care costs, costs related to a disability, study-abroad costs, and other miscellaneous expenses, as outlined in Section 472 of the Higher Education Act.

CPS Transaction Number

A transaction number from an eligible ISIR used to calculate the award.

Credit Check

An examination of someone's credit history (record of paying debt). A credit check is required before a parent or graduate/professional student may borrow a Direct PLUS Loan. Credit checks are initiated through one

of three ways: 1) A loan origination record is received from a school; 2) A PLUS applicant completes a Direct PLUS Loan Request through StudentLoans.gov; 3) A school requests a credit check via the COD Web site.

Credit checks expire 180 days from the date initiated.

However, once a Direct PLUS Loan award has an accepted credit decision, an accepted endorser, or an approved appeal due to extenuating circumstances associated with it, any new credit decision will have no impact on that loan. Generally, borrowers who obtain an accepted endorser or receive approval of an appeal due to extenuating circumstances must also complete PLUS Counseling before the school may disburse the loan.

Current Funding Level (CFL)

The amount of funds that have been made available year to date. This is not necessarily the same as available balance.

Current Social Security Number

This is the Social Security Number (SSN) that is in the Current Social Security Number field on the greatest CPS Transaction Number used to establish an award for this student on the COD System. Current SSN is a component of the student identifier in the COD System.

Direct Loan Program

A Federal program where the government provides four types of education loans available to students and parents:

- Federal Direct Subsidized Loan (for students)
- Federal Direct Unsubsidized Loan (for students)
- Federal Direct PLUS Loan (for parents and graduate and professional students)
- Federal Direct Consolidation Loan (for students and parents)

These loans, which are referred to collectively as Direct Loans, are made by the U.S. Department of Education.

Direct Subsidized Loan

A federal student loan made through the William D. Ford Federal Direct Loan Program for which a borrower is not responsible for paying the interest while in an in-school, grace, or deferment period in most cases.

If the borrower receives his/her first federal student loan after June 30, 2013, the borrower may not receive Direct Subsidized Loans for more than 150% of the published length of the program in which the borrower is enrolled. This is called the "maximum eligibility period."

In addition, if the borrower continues to be enrolled in any undergraduate program after receiving Direct Subsidized Loans for his/her maximum eligibility period, the borrower becomes responsible for paying (with

certain exceptions) the interest that accrues on the borrower's Direct Subsidized Loans during all periods. This is called hitting the subsidized usage limit.

Direct Unsubsidized Loan

An unsubsidized loan made through the William D. Ford Federal Direct Loan Program for which the borrower is responsible for paying interest during all periods. Interest is charged from the date of disbursement.

Disbursement

Title IV program funds are disbursed when a school credits a student's account with funds or pays a student or parent directly with either:

- Title IV funds received from ED
- Institution funds used before receiving Title IV program funds.

Disbursement Release Indicator

The Disbursement Release Indicator is a tag on the Common Record that designates a record as an Actual Disbursement Record. When set to true, it signals the COD System to post the amount of disbursement to an award (loan/grant).

In the context of XML, a document is a message or data transmission and is a combination of markup and content. Markup is a type of language contained within start and end tags. Content is the data that falls between the tags. A Common Record message or transmission is considered to be an XML document. A Common Record document can be thought of as a batch.

Drawdown

A drawdown occurs when a school or Payment Analyst, on behalf of a school, initiates a request for money through G5, and the funds are transmitted from the US Treasury to the school's bank account.

Edit/Comment Codes

These are a series of numeric codes that explain processing results, including data corrections, duplicates, and record rejects, for specific processed records for all award years.

Edit Only Record

In the COD Process, a record sent with anticipated disbursement information for editing purposes only. Edit Only Records may originate an award, but are not intended to request or report funds. Schools using the Common Record submit a record with the Disbursement Release Indicator set to False.

Element

XML documents consist of elements that are preceded and terminated with tags. An example of an element is <LastName>Smith</LastName>, where LastName is an element.

Eligible Applicant

An eligible applicant is a student who has submitted a Free Application for Federal Student Aid (FAFSA®) and meets the eligibility requirements for Title IV financial aid. The student must be currently enrolled or be a prospective student at a postsecondary school which is eligible to participate in Federal Student Financial Aid programs.

Eligible Program

An educational program that meets regulatory requirements for participating in Title IV programs.

Eligibility Used

The Eligibility Used percentage is calculated by summing all of the accepted actual disbursement records for this student at the attended institution for a specific award year and dividing that amount by the Scheduled Federal Pell Grant Award at the attended institution.

Endorser

The endorser is someone who agrees to repay a Direct PLUS Loan if the borrower does not. A Direct PLUS Loan borrower with an adverse credit history may still receive a Direct PLUS Loan if he/she obtains an endorser who does not have an adverse credit history. If the borrower is a parent, the student cannot be the endorser.

Endorser Addendum

The Endorser Addendum to the Direct PLUS Loan Master Promissory Note (Endorser Addendum) is a legal document in which an endorser promises to repay a Direct PLUS Loan and any accrued interest and fees to the U.S. Department of Education if the borrower does not. An Endorser Addendum must be completed for each loan.

Enrollment Date

The first date that the student was enrolled in an eligible program for the designated award year. If the student enrolled in a crossover payment period before the first day of the Pell award year (July 1), but which will be paid from 2017-2018 funds, report the actual start date of the student's classes for that payment period.

Enrollment School Code

The 8 digit OPEID for the physical location where the student is attending class.

Enrollment Status

The status of a student's enrollment during the payment period of the disbursement.

Expected Family Contribution (EFC)

The figure that indicates how much of family's financial resources should be available to help pay a student's postsecondary education expenses. This figure, which is determined according to a statutorily defined method known as the federal Need Analysis Methodology, is used for all students in determining eligibility for Title IV student financial aid. Rejected CPS transactions appear on COD and can only be used to award unsubsidized loans. No EFC is calculated for rejected CPS transactions, however, on COD the EFC for rejected transactions will display as all nines. Rejected CPS transactions will only be reflected on COD for 2009-2010 and forward.

Extended Processing

The Direct Loan Program provides award relief during extenuating circumstances. An institution may request extended processing if it is unable to meet the processing deadline (also known as Closeout Deadline). The Department of Education grants extended processing due to either an event, such as a natural disaster, or a processing error. The Federal Pell Grant Program provides grant relief during extenuating circumstances. An institution may request administrative relief when it is unable to meet the September 30th deadline for submitting records, due to either an event, such as a natural disaster, or a processing error.

Federal Pell Grant Payment Schedule

The Schedule of Federal Pell Grant Awards. The Schedule is based on the EFC, the enrollment status, and the school COA. The schedule is usually posted in January on the IFAP Web site for the upcoming award year.

Federal Pell Grant Program

A type of federal financial aid awarded to eligible, qualified applicants. A Federal Pell Grant, unlike a loan, does not need to be repaid. Generally, Pell Grants are awarded only to undergraduate students that have not earned a bachelor's or professional degree.

Federal Supplemental Educational Opportunity Grant (FSEOG)

A campus-based aid program that provides grant assistance to students with financial need who are in undergraduate programs and have not earned a bachelor's degree or first professional degree. Priority in awarding FSEOG funds is given to students who have exceptional financial need and are Federal Pell Grant recipients.

FSA

The Office of Federal Student Aid within the U.S. Department of Education.

Full Response

A Common Record response document that contains all of the original tags and data sent by the school and the processing results, edit codes, and rejected data elements.

G5

G5 is the system used by the U.S. Department of Education's Office of the Chief Financial Officer to process school-specific obligations and to make payments (drawdowns) against those obligations. G5 communicates with the COD system through FMS. G5 is part of EDCAPS and interfaces directly with U.S. Treasury's Federal Reserve System.

Gainful Employment

An educational program, including most non-degree programs at public and non-profit institutions and virtually all programs at proprietary institutions, that must prepare students for "gainful employment in a recognized occupation." It is identified by a combination of the institution's six-digit Office of Postsecondary Education ID (OPEID) number, the program's six-digit CIP code as assigned by the institution or determined by the Secretary, and the program's credential level.

Information for Financial Aid Professionals (IFAP)

A Federal Student Aid (FSA) online database/library that provides financial aid administrators (FAAs) access to current and archived FSA information/materials (e.g., technical publications, reference manuals, regulatory and policy guidance, and Dear Colleague Letters) pertaining to the administration of FSA programs. Also provides automatic updates electronically to FAAs who subscribe to this service. Located at: <http://www.ifap.ed.gov>. A user ID and password are required to enroll for electronic updates.

Institutional Student Information Record (ISIR)

This is the electronic version of the Student Aid Report (SAR) that indicates eligibility for the Federal Pell Grant Program. The ISIR

contains the family's financial and other information reported on the Free Application for Federal Student Aid (FAFSA®), as well as key processing results and National Student Loan Data System (NSLDS) Financial Aid History information. It is transmitted electronically to postsecondary schools and state educational agencies.

Iraq Afghanistan Service Grant Indicator (IAS Grant)

Iraq and Afghanistan Service Grant Indicator was added to the Pell create award screen for Award Years 2010-2011 and forward. This indicator allows Pell ineligible students, identified by the Department of Defense as a dependent of a parent or guardian who died as a result of service in Iraq or Afghanistan, to be awarded Iraq and Afghanistan Service Grant funds.

Lifetime Eligibility Used (LEU)

The sum of all Eligibility Used (EU) percentages for a Pell recipient over their lifetime.

Master Promissory Note (MPN)

The Master Promissory Note (MPN) is a legal document in which the borrower promises to repay the loan(s) and any accrued interest and fees to the U.S. Department of Education. It also explains the terms and conditions of the loan(s). Multiple Direct Loans can be borrowed using a single MPN for up to 10 years. There are two types of MPNs:

- Direct Subsidized/Unsubsidized Loan MPN
- Direct PLUS Loan MPN

Maximum Subsidized Eligibility Period

This is the maximum period of subsidized Direct Loans that a student is eligible to receive for the academic program. It is equal to 150% of the calculated published program length in years.

MPN Acknowledgement

Term used for the COD response, which is sent to schools upon receipt of an MPN once edits have been performed and the linking attempted by COD.

MPN ID

The unique identifier printed on the MPN. It is made up of a student's SSN, 'M' – for subsidized or unsubsidized, 'N' – for Parent PLUS and Grad PLUS, the last two digits of the award year, a school's Direct Loan code, and a three-digit sequence number.

Example: 123456789M18G12345001

Multiple Reporting Record (MRR)

For the Pell Grant program, the Multiple Reporting Record (MRR) identifies originations and/or disbursements being reported by more than one institution for the same student. The multiple reporting records are designed to provide institutions with information to identify and resolve potential overaward payments and concurrent enrollments before they occur. Institutions may request records identifying the institutions which have originated or disbursed for specific recipients, specific institutions, or for all students originated at their school. This request can be done electronically through the COD web site or by phone to COD School Relations Center (1-800-474-7268).

Multi-Year (MY) Feature

A feature of the Master Promissory Note, which allows multiple Direct Loans for the same student/borrower to link to the same MPN.

Beginning in 2003-2004 award year, all domestic Direct Loan schools are eligible to use the Multi-Year Feature of the MPN. Once an MPN has been accepted and remains open, schools that use this feature do not have to obtain a new promissory note each academic year. The MPN may be valid for up to 10 years.

National Student Loan Data System (NSLDS)

As a Title IV automated system, the National Student Loan Data System, or NSLDS, is a national database of information about loans and other financial aid awarded to students under Title IV of the Higher Education Act of 1965. This system prescreens applications for Title IV aid, supports program administrative research functions, and improves Title IV aid delivery through automation and standardization.

Payment Analyst

Formerly referred to as Reimbursement Analyst. An FSA employee who ensures that schools have accurately determined FSA eligibility of and payment to each student, with sufficient funds in the school's G5 account, and submits documentation to that effect.

Payment to Servicer Amount

Amount of payment sent to the Servicer by the borrower within 120 days of the disbursement date. COD receives this information from the Direct

Loan Servicing System and generates a Payment to Servicer Response/Acknowledgement to the school.

Note: Federal Perkins Loans are not currently processed in the COD System.

PLUS Counseling

Required counseling for Direct PLUS Loan borrowers who obtain an approved endorser or an approved appeal based on documentation of extenuating circumstances. Borrowers must complete this counseling before schools can disburse funds. Counseling must be completed on <https://studentloans.gov>.

Post 9/11 Deceased Veteran Dependent

A student who is a dependent of an armed forces member who died as a result of performing military service in Iraq or Afghanistan after September 11, 2001. If the student is Pell-eligible, then the maximum Pell award is calculated as if they have a zero Expected Family Contribution (EFC). If the student is not Pell-eligible then they may be eligible for the Iraq & Afghanistan Service Grant. Postsecondary Education Participants System

(PEPS)

PEPS is the U.S. Department of Education system that provides the COD system with school eligibility information.

Pell Overaward Process (POP)

Federal Pell Grant recipients are allowed to receive a maximum of one full Scheduled Pell Grant during an award year. The COD System is programmed to calculate the percentage of Scheduled Pell Grant used (based on Section 690.65 of the regulations) each time a school reports a disbursement to the student. Any amount exceeding 100 percent of a full Scheduled Pell Grant represents an overaward situation. The COD System allows a potential overaward situation to exist for 30 days and sends a warning to all schools involved before reducing all of the students Pell Grant disbursements for that award year to zero.

This is returned when the special program reported is non credential teacher certification and there is at least one actual disbursement for the reported loan.

Remaining Actual Subsidized Eligibility Period

This is the difference between the Maximum Eligibility Period and the sum of the Subsidized Usage Periods on all loans the borrower has received. This is returned when there is a least one actual disbursement for the reported loan.

Remaining Anticipated Non Credential Teacher Certification Subsidized Eligibility Period

The remaining period of time in which the student may receive a Direct Subsidized Loan while enrolled in a non credential teacher certification program. This is returned when special program reported is non credential teacher certification and the reported loan has only anticipated disbursements.

Remaining Anticipated Subsidized Eligibility Period

The remaining period of time in which the student may receive a Direct Subsidized Loan. This is returned when the reported loan has only anticipated disbursements.

Reporting School

Student Aid Report (SAR)

After the student's FAFSA® is processed by the Central Processing System, the processor produces a Student Aid Report (SAR) that is sent to the student. The SAR reports the information from the student's application and, if there are no questions or problems with the application, the Expected Family Contribution (EFC), the number used in determining the eligibility for federal student aid, and the student's financial aid history.

As a result of the College Cost Reduction and Access Act (CCRAA) of 2007, the Teacher Education Assistance for College and Higher Education (TEACH) Grant program has been offered beginning with the 2008-2009 Award Year. The TEACH program provides funds to students who, in return, agree to teach four years within the first eight years of their graduation. Students must complete an Agreement To Serve (ATS), after which they may qualify for up to \$4,000 in a single award. Failure to meet the terms of the Agreement To Serve may result in forfeiture of the grant, which becomes an Unsubsidized Direct Loan that the student must repay.

This section describes the methods for delivering cash to schools: Advance Funded, Heightened Cash Monitoring 1 and 2, and Reimbursement. Here you will find more information regarding those delivery methods as well as controls and processing options pertinent to funding.

FUNDING METHODS AND PROCESSING OPTION RELATIONSHIPS	8

Current Funding Level (CFL)

The CFL is the total (cumulative award year to date) amount of funding authorization given to a school at any point of time. The available balance, or the amount the school can draw/receive, is its CFL minus net drawdowns. A separate CFL is maintained for each program by award year. A school's CFL may be adjusted upwards and/or downwards based on reported disbursements and other activity throughout the year.

Business Rules

1. The CFL can be increased by FSA to reflect the needs of a school.
2. The current CFL for a school, each cash transaction, and the amount of that cash transaction that has been substantiated can be viewed on the COD web site.
3. If a school determines that the CFL is not at an appropriate level, the school can contact their customer service representative and request that FSA increase their CFL.
4. When a school's total accepted actual disbursement records exceed net drawdowns, funds are made available for the school to draw through the G5 System.
5. If drawdowns are not substantiated fully within a prescribed period of time, the school's access to cash may be restricted.
6. Schools are contacted by a Customer Service Representative as soon as it appears that the school is having difficulty substantiating drawdowns in a timely manner.
7. If access to cash is to be restricted, schools will receive electronic warning notices and/or letters from Customer Service and/or FSA.

G5 System

The G5 System was formerly known as the Grant Administration and Payment System (GAPS)

Funding Methods

These are the methods for delivering cash to schools:

- Advance Funded
- Heightened Cash Monitoring 1
- Heightened Cash Monitoring 2
- Reimbursement
- Records First

Advance Funded

Under the Advance Funded delivery method, schools initiate draw down requests through the G5 System. Schools may only draw down cash up to their available balance. The available balance is the difference between the school's CFL and their net drawdown amount for a given award year and program. The U.S. Treasury transmits funds electronically to a school's bank account.

NOTE: Amounts actually drawn down should meet immediate need as defined by regulatory requirements.

Heightened Cash Monitoring 1 (HCM1)

Under Heightened Cash Monitoring 1 schools may draw down cash up to their available balance. COD must have accepted actual disbursement records before funds become available to draw. Schools initiate drawdown requests through the G5 System. The available balance is the difference between the school's CFL and their net drawdown amount for a given award year and program. The U.S. Treasury transmits funds electronically to a school's bank account.

Heightened Cash Monitoring 2 (HCM2)

Under Heightened Cash Monitoring 2, a Payment Analyst must approve the submitted disbursement records, and draw down cash up to the available balance for the school. The available balance is the difference between the school's CFL and their net drawdown amount for a given award year and program. The U.S. Treasury transmits funds electronically to a school's bank account.

Reimbursement

Under Reimbursement, a Payment Analyst must approve the submitted disbursement records and draw down cash up to the available balance for the school. The available balance is the difference between the school's CFL and their net drawdown amount for a given award year and program. The U.S. Treasury transmits funds electronically to a school's bank account.

Records First

Beginning in July 2016, school users can report to FSA that they are processing 'Records First.' A school user can navigate to the School Options page on the COD web site and indicate that they will submit records prior to requesting drawdowns in G5.

Note: this option does not have any processing impacts. Schools will still have the ability to draw down the funds prior to submitting the disbursement records to COD.

Funding Controls

Schools' ability to receive cash to fund their Pell Grants, TEACH Grants, and Direct Loans is contingent upon submitting actual disbursement records. The business rules associated with the Advance Funded and the three (3) review statuses (HCM1, HCM2, and Reimbursement) are listed below:

Advance Funded

Under Advance Funded, schools can submit actual disbursement records in Advance of, on, or after the disbursement date.

Business Rules

1. Schools can initiate drawdowns through the G5 System, based on their immediate need and cash management regulations, up to their available CFL.
2. At the beginning of each award year, a school's initial CFL amount is calculated for Direct Loans on the basis of the school's prior year disbursement history.
3. Advance Funded schools will not receive an initial CFL for the Pell Grant and TEACH Grant Programs prior to having records accepted by COD. A school's CFL will increase based on accepted and posted actual disbursements.
4. Each drawdown a school receives must be substantiated with actual disbursements submitted and accepted by the COD System.
5. Actual disbursement records can be submitted within the following parameters:
 - a. For Pell, TEACH Grant, and Direct Loan programs, up to seven (7) calendar days prior to the disbursement date.
6. Actual disbursements are applied to substantiate drawdowns on a first-in/first-out basis.
7. The CFL may change throughout the year as the school transmits actual disbursement information on a "timely basis" and the COD System accepts the disbursements. A school's CFL can be decreased according to the program-specific requirements and/or activity.
8. For Direct Loans, all schools are required to have an accepted origination record and accepted MPN before COD will accept actual disbursements.

Heightened Cash Monitoring 1 (HCM1)

A school can be placed on Heightened Cash Monitoring 1 (HCM1) review status by FSA. Under the HCM1 review status, schools may draw down cash through the G5 System based on actual disbursements submitted to and accepted by the COD System.

Business Rules

1. HCM1 schools will not receive an initial CFL for the Pell Grant, Direct Loan and TEACH Grant Programs prior to having records accepted by COD. The school is given a first CFL increase when their first disbursement is accepted and posted by COD.
 - a. The school's CFL will equal its net accepted actual disbursements.
2. Actual disbursements can be submitted up to seven (7) calendar days before the disbursement date.
3. Schools placed on HCM1 are required to submit documentation of disbursements as directed by FSA.

Heightened Cash Monitoring 2 (HCM2)

A school may be placed on Heightened Cash Monitoring 2 (HCM2) by FSA. Under the HCM2 funding control, the FSA School Participation Division initiates a drawdown through the G5 System on behalf of a school and direct cash payments are deposited in the school's bank account based on actual disbursements submitted to and accepted by the COD System and released by the FSA School Participation Team.

Business Rules

1. Pell Grant, TEACH Grant, and Direct Loan schools on Heightened Cash Monitoring 2 (HCM2) drawdown their own funds through G5. However, the FSA School Participation Division initiates the drawdown through the G5 System upon review of required documentation.
2. Actual disbursements must be submitted on or after the disbursement date.
3. Schools on HCM2 will not receive an initial CFL for the Pell Grant, Direct Loan and TEACH Grant Programs prior to having records accepted by COD.
4. CFL increases are based on accepted and posted actual disbursements.
5. Schools placed on HCM2 are required to submit documentation of disbursements as directed by FSA.
6. Beginning in Spring 2014, the prior disbursement transaction must be processed by the Payment Analysts before HCM2 schools can submit a change to the record.

Reimbursement

Under the Reimbursement review status, the FSA School Participation Division initiates a drawdown through the G5 System on behalf of a school and direct cash payments are deposited in the school's bank account based on actual disbursements submitted to and accepted by the COD System and released by the FSA School Participation Division.

Business Rules

1. The FSA School Participation Division initiates the drawdown through the G5 System upon submission of the required documentation by the Reimbursement school.
2. Actual disbursements must be submitted on or after the disbursement date.
3. Schools on Reimbursement will not receive an initial CFL for the Pell Grant, Direct Loan and TEACH Grant Programs prior to having records accepted by COD.
4. Schools placed on Reimbursement are required to submit documentation of disbursements as directed by FSA.
5. Beginning in Spring 2014, the prior disbursement transaction must be processed by the Payment Analysts before Reimbursement schools can submit a change to the record.

Privacy Notice

The COD System is a United States Department of Education computer system, which may only be used for official Government business by authorized personnel. Unauthorized access or use of this computer system may subject violators to criminal, civil, and/or administrative action.

Warning

If such monitoring reveals possible evidence of criminal activity, monitored records will be provided to law enforcement officials.

If you use this computer system, you must understand that all activities may be monitored and recorded by automated processes and/or by Government personnel. Anyone using this system expressly consents to such monitoring.

This system contains personal information protected under the provisions of the Privacy Act of 1974, 5 U.S.C. §552a - - as amended. Violations of the provisions of the Act may subject the offender to criminal penalties.

COD Web Site Access

Beginning in May 2013, the COD Website will no longer be used to create new users or conduct password maintenance. All COD Website users will be required to register through the Federal Student Aid Participation Management System. All COD Website password maintenance will be done via the current process using the Access and Identity Management System (AIMS) website. Additional information will be available via electronic announcements.

Schools and Third-Party servicers who wish to gain access to the COD Website must first be enrolled for COD online service by a school's or organization's Primary Destination Point Administrator (PDPA) via the Student Aid Internet Gateway (SAIG) enrollment website and have an FSA User ID and Password. The number of Primary Destination Point Administrators is at the discretion of the institution, although it is strongly recommended that the number is limited.

To be enrolled for the COD Online Service, the user must complete three actions outlined below.

Action 1: Submit SAIG Enrollment Form

The user must first complete a SAIG Enrollment Form. **Note:** The SAIG Enrollment form cannot be completed online at <https://fsawebenroll.ed.gov/PMEnroll/index.jsp>.

To simplify completing the SAIG Enrollment Form, some questions have been pre-filled. In addition, instructions have been included with the form to assist in completing the required questions. Once you have completed the form and have all of the required signatures, send the completed form to Federal Student Aid as indicated on the signature page instructions.

Once the submitted form is processed, you will receive an e-mail with a pseudo-Social Security Number (SSN) and TG number. Be sure to file these numbers in a secure location; they should not be shared with other individuals. These numbers will also be needed to request and register for an FSA User ID (see the next section below). **Note:** Each user associated with multiple schools must enroll for the COD Online Service for ***each school*** for which COD Web site access is needed.

Action 2: Obtain FSA User ID and Password

After the COD Web site user is enrolled for the COD Online Service, he or she can register for an FSA User ID and password. Users who need to register for an FSA User ID and password can do so by completing the following steps:

Step 1: Go to the SAIG Enrollment Web site and click on the "FSA User ID Registration" link on the left-hand side of the home page.

Third Party Vendor Information

Third-Party vendor information is requested for information purposes only, and will help COD provide better customer service. This information DOES NOT authorize third-party servicers or vendors to access your school's data.

School's Destination Point Administrator is authorized to set up additional users at their school ONLY. School's Destination Point Administrators should NOT set up/enroll COD online services for third-party servicers and/or vendors used by their institution. Third-Party Servicers are responsible for requesting their own Destination Point Administrator. Due to relationship data stored within COD, third-party servicer web users will be able to view data for the schools that they have a relationship with.

Step 2: Enter the identifying information requested and click on Submit. This will include your First Name, Last Name, Last 4 digits of SSN, and Date of Birth.

Step 3: Follow the remaining steps, which include establishing a password and setting up challenge questions.

Once the registration process is complete, you will be sent the FSA User ID via e-mail. You will then need to register your TFA token for use with your new FSA User ID.

Action 3: Register TFA Token

After the FSA User ID registration process is complete and the FSA User ID is received, the user will then need to register his or her TFA token to associate it with the FSA User ID. Users who do not have a TFA token should contact their Primary Destination Point Administrator (PDPA) to obtain one. **Note:** If a user already has a TFA token because he or she accesses another Federal Student Aid system, the user does not need to register it again.

To register a TFA token, use the following steps:

1. Go to the following URL:
<http://sa.ed.gov/enrole/SAWeb/selfmenu.jsp>.
2. Click on the token registration link: "Register/Maintain Token."
3. Enter your FSA User ID and password and click on "Login."
4. Complete the token registration information.
5. When the "Success" message is displayed, your token has been registered.
6. Once you have completed all three actions, you will be able to access the COD Web site.

Note: If a school needs additional TFA tokens, the PDPA should send an e-mail to TFA_Communications@ed.gov, and include the school name and OPE ID on the correspondence.

Note: Each user associated with multiple schools must enroll for the COD Online Service for each school for which COD Web site access is needed.

Rules of Behavior

Schools are encouraged, but not required, to establish Rules of Behavior as part of their business processes related to the COD System. The Rules of Behavior developed by the United States Department of Education are available for reference. Please note that these rules have been established for Department of Education employees. Your institution's rules may be different, but should cover all the areas covered in the following examples:

Introduction

A good security posture supports the business purpose of the organization. Rules of behavior are designed to provide a schema for sustaining the business process, minimizing disruption, maintaining the ability to continue customer support, and supporting a planned and orderly restoration of service in an emergency.

Federal Student Aid (FSA), Common Origination and Disbursement (COD), processes and stores a variety of sensitive data that is provided by students, colleges/universities, financial, and Government institutions. This information requires protection from unauthorized access, disclosure, or modification based on confidentiality, integrity, and availability requirements. The "Rules of Behavior" apply to all employees/users (including corporate, Government, Modernization Partner, and Trading Partner) of the FSA/COD computer system and their host applications.

The rules delineate responsibilities and expectations for all individuals supporting the COD programs. Non-compliance of these rules will be enforced through sanctions commensurate with the level of infraction. Depending on the severity of the violation, sanctions may range from a verbal or written warning, removal of system privileges/access for a specific period of time, reassignment to other duties, or termination. Violation of these rules and responsibilities could potentially result in prosecution under local, State, and/or Federal law.

Physical Security

- Keep all badges, access codes, and keys under personal protection.
- Wear your assigned identification security badge at all times while in the office/building.
- Ensure your visitors have signed the visitor's log/are escorted at all times.
- Never allow any individual who does not have proper identification access to the office space.
- Stop and question any individual who does not have proper identification, and contact Security immediately. Seek the support and cooperation of co-workers as appropriate.

- Maintain control over your corporate/Government provided hardware/software to prevent theft, unauthorized use/disclosure, misuse, denial of service, destruction/alteration of data, and/or violation of Privacy Act restrictions.
- Keep your desk clean to ensure that sensitive and proprietary information does not get hidden in minutia and therefore not properly secured/protected when not in use because it is not visible.

Computer Virus Protection

- Use the approved anti-virus software on your personal computer.
- Avoid booting from the A: drive.
- Scan all new diskettes before using or distributing them.
- Write-protect all original vendor-supplied diskettes.
- Back up all data on your workstation and file server regularly.
- Use only authorized and appropriately licensed software.
- Report all incidents of computer viruses to your System Security Officer (SSO) or Manager.
- Do not download, introduce, or use unauthorized software from unknown or unverifiable sources. All users are required to comply with safe computing practices to reduce the risk of damage by any type of computer virus.

Computer System Responsibilities

- Do not make copies of system configuration files (that is, /etc/passwd) for your own use, unauthorized use, or to provide to others for unauthorized use.
- Do not attempt to access any data or programs on the COD system for which you do not have authorization or explicit consent from the owner of the data or program.
- Do not, without specific authorization, read, alter, or delete any other person's computer files or electronic mail (E-mail), even if the operating system of the computer allows you to do so.
- Do not engage in, encourage, or conceal any "hacking" or "cracking," denial of service, unauthorized tampering, or unauthorized attempted use of (or deliberate disruption of) any computer system within the COD program.
- Do not purposely engage in any activity with the intent to:
 - Degrade the performance of the system;
 - Deprive an authorized user access to a resource;
 - Obtain or attempt to obtain extra resources beyond those allocated; or

-
- Circumvent security measures in order to gain access to any automated system for which proper authorization has not been granted.
 - Do not download, install, or run security programs or utilities that might reveal weaknesses in the security measures or access privileges of any system. Inform the SSO when you find such a weakness.
 - No user, software developer, or Web developer should write or put into production any computer code, program, or script that is considered to be a *Trojan Horse* or any *back door* means of accessing the system or applications.
 - Any user that is found to introduce *Trojan Horse* type code, program, or script, is subject to prosecution under local, State, and Federal law and is subject to local department/corporate policies that enforce disciplinary action up to and including dismissal. This policy includes the use of `.rhosts` and `.netrc` files in any user's home directory for the purpose of avoiding entering keystrokes to gain access to any system.
 - No user of any software application should attempt to circumvent any security measures for that application.
 - Users should access only the resources of an application that are necessary to perform their job assignments, even though an application may grant further access privileges.

Trojan Horses

A Trojan horse is an application that attempts to circumvent any security measures

Unofficial use of Government equipment

- Users should be aware that personal use of information resources is not authorized unless sanctioned by management.
- Do not utilize corporate/Government resources for commercial activity or any venture related to personal profit or gain.
- Do not utilize corporate/Government resources for behaviors that are unethical or unacceptable for the work environment.

Remote access

- The project may authorize remote access to COD. It is understood that remote access poses additional security risks, but may become necessary for certain job functions.
- If remote access is allowed, the CIO and the security office will regularly review telecommunications logs and COD phone records, and conduct spot-checks to determine if COD business functions are complying with controls placed on the use of dial-in lines.
- All remote access calls will use appropriate passwords.
- Do not divulge remote access details to anyone. If an employee needs dial-up access, refer him or her to the Technical Architecture team.

Connection to the Internet

- Use of corporate/Government resources to access the Internet must be approved, and the access should be used for authorized business purposes only.
- Use of corporate/Government resources for accessing the Internet for personal gain or profit, even though you may be using your own ISP, and on your lunch hour/break, is unacceptable.
- Use of corporate/Government provided Internet access is subject to monitoring. Accessing web sites that contain material that is deemed by management to be inappropriate for the workplace, including but not limited to obscene, or sexually oriented material, is prohibited. Disciplinary action may be taken.

E-Mail

- Users will take full responsibility for messages that they transmit through corporate/Government computers and networks facilities.
- Laws and policies against fraud, harassment, obscenity, and other objectionable material apply to electronic communications as well as any other media. Corporate, local, state, and federal laws/rules and regulations may also apply.
- All e-mail that is transmitted on corporate/Government servers is subject to monitoring by corporate/Government personnel.

Copyright

- Never install or use any software that has not been specifically licensed or authorized for use.
- Never download software from the Internet to corporate/Government systems (which is strictly prohibited) without prior authorization/approval. Follow defined procedures for downloading software.
- Adhere to all purchased software copyright, duplication requirements, and license agreements that are imposed by the vendor. Violations place the individual, the corporation, and/or the Government at risk.
- Copyright licenses for software used by COD program personnel must be understood and complied with.

User IDs

- Do not share user identification (IDs) or system accounts with any individual.
- When leaving a session unattended for a short period of time, lock the keyboard with a password-protected screen saver.
- Employ the automatic password/screen saver option feature offered by the operating system (in Windows, use **SETTINGS, DISPLAY, SCREEN SAVER**) and set the time for 15 minutes as a minimum.)

-
- Logoff when leaving your session unattended for an extended period of time.
 - Be aware of logon and logoff times to ensure that someone else is not using your ID.

Passwords

Your password SHOULD...

- Be difficult to guess (Do not use names that are easily identified with you or appear in a dictionary, to include anniversary dates, etc.)
- Be changed frequently (at least every 90 days).
- Contain a minimum of 8 characters in length.
- Contain alphabetic and numeric characters (1 special character, 4/5 alphabet, 3/2 numeric).
- Contain at least three of the four criteria: upper case, lower case, number, or special character.
- Be changed immediately if you suspect it has been compromised.

Your password SHOULD NOT...

- Have the same character/alphanumeric appear more than once.
- Be shared with anyone.
- Be written down, posted on a “yellow stickie” stuck to your monitor or computer, documented on your calendar, stored in your wallet or purse, etc.
- Be stored on a programmable key.

Do Not check the memorize password feature on your system, which would eliminate the necessity to respond to a password prompt with other than pressing the RETURN key.

Users

- Users are personnel authorized and able to access department IT assets. They include operators, administrators, and system/network maintenance personnel.
- All users are expected to understand and comply with this policy document and its requirements.
- Questions about the policy should be directed to the appropriate Chief Security Office (CSO) or the Department Chief Information Officer/Information Assurance (DCIO/IA).

All users will report security problems or incidents to their respective SSOs or other appropriate security official as soon as practical. Violations of security policies may lead to revocation of system access or disciplinary action up to and including termination.

Privacy Act Data Protection

- Privacy Act data must not be transmitted unprotected.
- Privacy Act data includes: SSN, Name, Date of Birth, Mother's Maiden Name, and other information used to identify a specific individual.
- Documents containing privacy act data are to be password protected using that month's password when distributed electronically.
- The password is distributed monthly by the FSA SSO.
- Contact your company's COD System Security Officer if you need to be added to the distribution list for the monthly password.
- Notify your SSO if any violations of this policy occur.

Other Policies and Procedures

The Rules of Behavior are not to be used in place of existing policy, rather they are intended to enhance and further define the specific rules each user must follow while accessing the COD system. The rules are consistent with the policy and procedures described, but not limited to, the following directives:

- Freedom of Information Act.
- Privacy Act.
- Computer Security Act.
- Government Information Security Reform Act (GISRA).
- OMB publications.
- National Institute of Standards and Technology (NIST) publications.
- Network security manuals/procedures.
- System security manuals/procedures.
- Personnel security manuals/procedures.
- Software security manuals/procedures.
- Department of Education publications.

These responsibilities will be reinforced through scheduled security awareness training.

I acknowledge receipt of, understand my responsibilities, and will comply with the “Rules of Behavior” for the COD System. I understand that failure to abide by the above rules and responsibilities may lead to disciplinary action up to and including dismissal. I further understand that violation of these rules and responsibilities may be prosecutable under local, State, and/or Federal law.

The Common Origination and Disbursement Process utilizes one single record across programs for both originations and disbursements. Users utilize a Common Record – one that uses common data elements, definitions, edits, and structure for Grants and Direct Loans. Although the record has the same layout for all programs, not all data elements are required for each transmission. This new record layout relies on a technology called the eXtensible Markup Language, or XML.

This section provides examples of some of the COD Response Documents. For additional information regarding business rules, please refer to Volume II, Section 1: Implementation Guide. For additional information regarding XML and the Common Record, please refer to Volume I, Section 3: COD Overview of this technical reference.

Direct Loan Forms

Creating Master Promissory Note Paper Manifests

All promissory notes must be mailed and accepted by COD before the loans are booked. The hard copy promissory notes must be accompanied by a paper manifest that lists the borrower's name and MPN ID for each promissory note in the shipment. Also, the paper manifest provides a certification to be signed by an official at the school. A sample Direct Subsidized/Unsubsidized Loan MPN Paper Manifest, a sample Grad PLUS Loan MPN Paper Manifest, and a sample Direct PLUS Loan MPN Paper Manifest are provided below.

Business Rules

1. Subsidized/Unsubsidized MPNs, Grad PLUS MPNs and PLUS MPNs must be batched separately and a separate paper manifest created for each batch.
2. Additionally, separate batches and manifests must be created for each DL school code.
3. Each batch may contain up to 100 notes.
4. After processing, the manifest is returned to the school address on the promissory note unless the school indicates another address on the manifest.
5. The Report Date (in MM/DD/YYYY format) and the Report Time (in HH:MM:SS format) indicate when the manifest was produced.
6. A page number starting with 1, incremented by 1 for each subsequent page printed, is included on each page of the manifest.
7. Records are printed in the last name alphabetical order, or numerical borrower ID order. The borrower's name is printed in last name, first name, and middle initial order. The Loan ID associated with borrower's name is printed.
8. The number of notes for shipping indicates the number of promissory notes covered by the paper manifest. It is only printed on the final page of the paper manifest.
9. The certification statement, DL school code, school name, signature block, and Financial Aid Administrator (FAA) name are only printed on the last page.

Grant Edit Codes

Introduction

This section provides a table to help you interpret the various edit codes that are used and their related comments. The information is grouped according to the following column headings:

- Edit Code – the number that is assigned if the edit condition(s) is met. This column also lists one of the three edit types. They are:
 - W Warning and/or Corrected
 - E Rejected
- Message – the explanation that displays for the prescribed edit condition.
- Condition and Action – a description of the situation that caused the edit and the action taken either to resolve it and/or to notify the school of the potential error.
- What It Means – further explanation of the message in an effort to make the cause of the edit clearer.
- How to Fix It – what the user must do to resolve the mistaken condition.
- COD Web site Edit Code – the edit code that the user will see on the COD Web site; Web site edit codes are translated to the Pell Phase-In edit code on the SAIG Acknowledgment files.

The following comparison operators are used in performing these edits:

Equals	=
Less than	<
Greater than	>
Less than or equal to	<=
Greater than or equal to	>=
Not equal to	<>
A parameter value that can be changed between cycles, this is the data that comes from the ALGORITHM and AWARD YEAR tables and can be made year-specific.	@

Grant Data Requests

Data Requests are sent by schools to request information files. These files are the Multiple Reporting Record, Electronic Statement of Account, Year-to-Date, Reconciliation File, Verification Status, and Pell POP Report.

Business Rules

1. Grant Data Requests are sent as fixed-length, flat files and not as XML documents.
2. Grant Data Requests are sent to the COD system via SAIG batch with message class PGRQ17IN (Pell) via the COD Web site.
3. After the Data Request is received and processed, a Data Request Acknowledgement record is sent back to the institution for each data request received.

SSN/Name/Date of Birth Change Report

The Pell SSN/Name/Date of Birth Change Report lists students who have had identifier changes (including changes to SSN, name, and date of birth) during the reporting period, which is 90 days prior to the report end date. A student with an identifier change will be included on your school's report if that person was associated with your school for any of the 3 most recent award years. The change may have been initiated by: a) your school, b) another school associated with that student. The report detail provides information on the school submitting the change, the field changed, the old value, the new value, and the date the change was accepted, to assist your school with researching any related identifier issues. This report may include data regarding Iraq and Afghanistan Service Grant students.

Business Rules

1. The SSN/Name/Date of Birth Change Report is automatically sent to the school's SAIG mailbox on a weekly basis, when a change is initiated.
2. The SSN/Name/Date of Birth Change Report is available via SAIG in the following format:

3. The SSN/Name/Date of Birth Change Report is available via the COD Web site in the following format:
 - a. Comma-Delimited (CSV)
 - b. The SSN/Name/Date of Birth Change Report available on the COD Reporting Web site is the report most recently generated by COD.
4. Although the SSN/Name/Date of Birth Change Report is generated weekly, if there is no data for the report on a given week, the report will not be sent to the schools' SAIG mailbox or made available via the COD Reporting Web site.

Pell POP Report

The Pell POP Report is sent to all schools that have reported disbursements for students that are in or have been in a POP situation for this award year. The report lists all students currently in POP, all students no longer in POP and all schools involved in the POP situations. This report will not include any data regarding Iraq and Afghanistan Service Grant students.

Business Rules

1. The Pell POP Report is automatically sent to the school's SAIG Mailbox on a weekly basis in the following format:
 - a. Preformatted Text file (message class PGPR18OP)
2. The Pell POP Report is automatically sent to the school's Newsbox on the COD Web site on a weekly basis in the following format:

The Pell POP Report is only sent to a school for that week if it currently has at least one student in POP.

 - a. Comma-Delimited (CSV)
3. Schools can also submit a data request for the Pell POP Report either through Batch or the COD Web site.
 - a. Pell POP Reports generated as a result of a data request are sent to the school's SAIG mailbox in Preformatted format (message class PGPR18OP).
 - b. The Reporting School Entity ID is required on the data request while the Attended School Entity ID is optional.
 - i. If no Attended School Entity ID is submitted (zero filled), then the report will consist of the Reporting School and all the associated Attended School(s) student records.
 - ii. If an Attended School Entity ID is submitted, then the report will consist of the Reporting School and only that Attended School student records.
 - c. The report generated as of result of a data request will contain data as of the previous night's processing.
4. The Pell POP Report is grouped by Attended School ID
 - a. Within each Attended School ID group, the Pell POP Report groups students who:
 - i. Are currently in a POP situation for this award year
 - ii. Have been in a POP situation during this award year, but are no longer in a POP situation. Students no longer in a POP situation include:
 1. Students for whom a school has submitted a negative disbursement to resolve the situation
 2. Students for whom COD has reduced all disbursements to \$0 because the POP situation has gone unresolved for more than 30-Days
 - b. Within each grouping, students are sorted by Last Name, First Name, Middle Initial, SSN, and DOB.
5. The Pell POP Report will be sent to schools weekly until the last day of December for that specific award year. Example: Award year 2017-2018 ends 9/30/2018; the final date that COD would generate the Pell POP Report for 2017-2018 would be 12/31/2018.
6. Although the Pell POP Report is generated weekly, if there is no data for the report on a given week, the report will not be sent to the schools' SAIG mailbox or made available via the COD Reporting Web site.

The 2017-2018 Pell Lifetime Eligibility Report identifies Pell eligible CPS applicants for the 2017-2018 award year that are approaching or have exceeded the 600.000% LEU limit. Records displayed on the “Pell Lifetime Eligibility Used 2017-2018” report will be a snapshot of data on the COD System as of the report run time.

Business Rules

1. The report is limited to 2017-2018 award year Pell eligible CPS applicants with an LEU greater than or equal to 450.000%
2. The report is based on the applicant’s eligible highest CPS transaction number.
3. Beginning in March 2017, the report will be made available in a schools TG mailbox via SAIG using message class PGLE18OP
4. Data on the report is cumulative and sorted ascending by Social Security Number.
5. The data in the report is compiled based on the Federal School Code the applicant included on his or her 2017-2018 FAFSA®.
6. The OPE ID associated with the school’s Federal School Code will determine which schools’ TG mailbox will receive the report.

Pell Grant School Account Statement (SAS)

Beginning March 2017, the COD System will begin producing the Pell Grant School Account Statement (SAS) for award years 2017-2018 and forward. The Pell Grant SAS is a monthly statement, similar to a bank statement, which summarizes the school's processing activity for that month and/or Year-to-Date (YTD). This statement can be used as a reconciliation tool to compare to both your financial aid and business office records.

Sections of the SAS

- **Cash Summary** - This section of the SAS provides the Department's official Ending Cash Balance for the school for the reported period. The Cash Summary contains both a monthly and a year-to-date summary of cash and loan data processed at COD for that program year. This information is automatically included in the SAS. This section can be compared to summary information on the school's internal systems. The comparison may then identify areas where further research is needed. The Pell Grant Cash Summary section will include the Beginning Cash Balance and the Department of Education's official Cash > NAPD as of the end date of the file. The Monthly Pell Grant Cash Summary section will include a monthly summary of cash and disbursement data processed on the COD System. The YTD Pell Grant Cash Summary section will include a year-to-date summary of cash and disbursement data processed on the COD System during the Award Year. If a school with NAPD activity for the year has a month without new NAPD, detailed activity, or cash activity, they will still receive a Pell Grant SAS Report for that month. The Cash Summary section will include the process date, which is the processing date the report was generated.
- **Cash Detail** - This section of the SAS provides details on cash transactions processed by the COD System. Transaction types included in this section are: drawdowns, drawdown adjustments, disbursement offsets, refunds of cash, returns, and/or reversals. Schools will be defaulted to receive the Monthly Pell Grant Cash Detail, but can update their preferences on COD Web to receive the YTD Pell Grant Cash Detail, or both, depending on the Report Activity Type selected by the school. The monthly Cash Detail section will include cash transactions processed on the COD System during the month, and the YTD Cash Detail section will include cash transactions processed from the start of the award year through the End Date of the file. If a school opts to receive both the Monthly and YTD Report Activity Types on COD Web, they will receive the monthly and YTD Pell Grant Cash Detail sections in different files. Schools will not have the ability to opt out of the Cash Detail Section for Pell Grant SAS Report.
- **Disbursement Level Detail** - This section of the SAS provides transaction level details for all disbursement and adjustment transactions funded and applied or processed on the COD System, including both financial and non-financial transactions for funded and applied disbursements. Schools will have the option of receiving the Monthly Disbursement Level Detail section, the YTD Disbursement Level Detail section, or both.
- **Award Level Disbursement Summary** - This section of the SAS provides year-to-date award level details for all awards with a funded and applied disbursement through the end date of the file. It is only available to schools who have opted to receive the Report Activity Type of YTD or Both and the Award Level Disbursement Summary section on the SAS Options page of COD Web.

Business Rules

1. The Pell Grant SAS will only be available in Comma-Delimited with Headers format.
2. The COD System generates the Pell Grant SAS on a monthly basis and automatically sends it to a school's SAIG mailbox.
3. The Pell Grant SAS is generated on the first full weekend of the month and includes all data through the last day of the previous month. If the first day of the month falls on a Sunday, the SAS will run the following weekend. For example, the October SAS report, containing all data through October 31, will be run on the first full weekend of November.
4. Starting with the 2017-2018 Award Year, the Pell Grant SAS will be generated each month for all schools that have at least one disbursement funded and applied or cash activity for that award year, and it will contain both a summary and detailed information.
5. Schools will continue to receive a Pell Grant SAS every month until the processing deadline has passed.
6. A school will receive a Pell Grant SAS after the processing deadline if the school has Net Accepted and Posted Disbursement (NAPD) activity or cash activity during the reported month.

7. Pell Grant SAS reports will also be generated for schools on extended processing every month including the month the extended processing expires.
8. All monetary fields in all sections of the Pell Grant SAS will include dollar amounts with pennies.
9. Pell Grant SAS will include non-financial disbursement adjustments in disbursement level detail sections of the SAS Disbursement Detail on Demand and regularly scheduled SAS. For a non-financial transaction to be included in the disbursement detail section of a regularly scheduled SAS, it must have been submitted and accepted by the COD system after an earlier financial transaction was funded and before the end of the month
10. Authorized users may modify their Pell Grant SAS Options via the SAS Options page on the COD Web
 - a. Users update the Report Activity Type field. Options included:
 - i. Monthly (Default)
 - ii. Year to Date
 - iii. Both (Monthly and YTD)
 - b. Based on the option a school selects under the Report Activity Type drop down box these are the disbursement sections a school can select to receive:
 - i. If a school chooses a report activity type of Monthly, the school will receive the Disbursement Level Detail and Cash Detail monthly section.
 - ii. If a school chooses a report activity type of Year-to-Date, the school will have the option to receive the Disbursement Level Detail and/or the Award Level Disbursement Summary Year-to-date sections. If the school chooses both the Disbursement Level Detail **and** Award Level Disbursement Summary they will receive each under a separate message class (report). Either options will include the YTD Cash Detail.
 - iii. If a school chooses a report activity type of Both (Monthly and Year-to-Date), the school can choose to receive the Disbursement Level Detail, and have the option to select the Disbursement Level Detail Year-to-Date and/or the Award Level Disbursement Summary Year-to-date. Based on the choices a school makes, they may receive up to three separate message classes (reports).
 - c. Schools may set or change their SAS options at any time. Changes will be applied to the next scheduled run of the Pell Grant SAS file.
 - d. Schools new to the Pell Grant program or schools that have not changed their options on the COD Web site are set to the default values which are a report activity type of monthly and receive the Disbursement Level Detail report.
 - e. A school's SAS options for the current award year will be carried over to the next award year with New Award Year Setup. If a school wants different options for different award years, it must update its options separately for each award year. Schools should ensure they are in the correct program year in the Pell Grant SAS Report Options screen before updating their options.
 - f. Users cannot opt out of receiving both Disbursement Detail and Award Level information.
 - g. The table below demonstrates which reports a user will receive based off their Pell Grant SAS Options:

TEACH Grant School Account Statement (SAS)

The TEACH School Account Statement (SAS) is a monthly statement, similar to a bank statement, which summarizes a school's TEACH processing activity for each month. The TEACH SAS is a school's primary tool used in reconciliation, and should be compared to both financial aid and business office records. This file provides the Department's official ending cash balance as of the end date of the file, based on data submitted by a school. As such, all schools with cash or disbursement activity within the award year will receive the TEACH SAS on a monthly basis.

Sections of the TEACH SAS

- **Cash Summary** - This section of the TEACH SAS provides the Department's official Ending Cash Balance for a school for the reported period. The Cash Summary contains both a monthly and a year-to-date summary of cash and award data processed at COD for that program year. This section can be compared to summary information on a school's internal systems. The comparison may then identify areas where further research is needed.
- **Cash Detail** - This section of the TEACH SAS provides detail on cash transactions processed at COD during the reported period. This includes drawdowns, drawdown adjustments, pushed funds, refunds of cash, returns, and/or reversals. If the monthly option is chosen, this section will only include cash transactions processed at COD during that month. If the year-to-date option is chosen, the section will include cash transactions processed at COD from the start of the program year through the end date of the file.
- **TEACH Award Detail, Disbursement Activity Level** - This section of the TEACH SAS provides transaction-level detail for all disbursement and adjustment transactions processed on COD during the reported period. If the monthly option is chosen, this section will include disbursements booked on COD during the reported month as well as year-to-date unbooked disbursements. If the year-to-date option is chosen, the section will include all disbursements, booked and unbooked, on COD as of the end date of the report. This information can be used to do a transaction-level comparison to the school's internal records, for either that month, or year-to-date. Note that for TEACH, unbooked disbursements are typically future dated disbursements. In most cases, unbooked disbursements appearing on the TEACH SAS are rare.

Business Rules

1. The COD system generates the TEACH SAS and automatically sends it to a school's SAIG mailbox.
2. The TEACH SAS is generated monthly and includes all data through the last day of the previous month.
3. The TEACH SAS displays pennies for all dollar amount fields.
4. Schools have the option to select the TEACH SAS Report Activity Type on the COD Web site.
 - a. The choices for the Report Activity Type option are:
 - i. Monthly (Default)
 - ii. Year-to-Date
 - iii. Both Monthly and Year-to-Date
 - b. Schools may set or change their Report Activity Type option at any time. Changes will be applied to the next scheduled run of the TEACH SAS file.
 - c. Schools new to the TEACH program or schools that have not changed their options on the COD Web site are set to the default values.
 - d. A school's SAS options for the current award year will be carried over to the next award year with New Award Year Setup. If a school wants different options for different award years, it must update its options separately for each award year. Schools should ensure they are in the correct program year in the TEACH SAS Report Options screen before updating their options.

5. The TEACH SAS file is delivered to a school's SAIG mailbox in Comma-Delimited format using the following message classes:
- Monthly file (message class THSM18OP)
 - Year-to-Date file (message class THSY18OP)

Message Class	Batch ID	Data Description	Record Length	Destination Mailbox

TEACH Grant SSN/Name/Date of Birth Change Report

The TEACH SSN/Name/Date of Birth Change Report lists students who have had identifier changes (including changes to SSN, name, and date of birth) during the reporting period, which is 90 days prior to the report end date. A student with an identifier change will be included on your school's report if that person was associated with your school for any of the 3 most recent award years. The change may have been initiated by: a) your school, b) another school associated with that student. The report detail provides information on the school submitting the change, the field changed, the old value, the new value, and the date the change was accepted, to assist your school with researching any related identifier issues.

The information on this report can be used to:

- Confirm identifier changes sent by your school have been accepted properly on COD.
- Update your records (where appropriate).
 - Because your school may not have initiated the change, it is important to monitor the information on this report for any updated identifier information for your students and make changes to your records where appropriate. This will help you prevent future rejects based on old identifier information.
 - If your school has more current information on the student's identifiers, you will need to ensure this information is properly documented and updated on COD.

Direct Loan School Account Statement (SAS)

The School Account Statement (SAS) is a monthly statement, similar to a bank statement, which summarizes the school's processing activity for each month. The SAS is the school's primary tool used in reconciliation and program year closeout, and should be compared to both financial aid and business office records. This report provides the Department's official ending cash balance as of the end date of the report, based on data submitted by the school. As such, all schools are required to receive the SAS on a monthly basis until they have officially closed out a program year.

Sections of the SAS

- **Cash Summary** - This section of the SAS provides the Department's official Ending Cash Balance for the school for the reported period. The Cash Summary contains both a monthly and a year-to-date summary of cash and loan data processed at COD for that program year. This information is automatically included in the SAS. This section can be compared to summary information on the school's internal systems. The comparison may then identify areas where further research is needed. For example, if the school determines their internal systems match the SAS Cash Summary information for Net Drawdowns/Payments but not for Total Net Booked or Total Net Unbooked, the school can target further research to loan detail only.
- **Disbursement Summary by Loan Type** - This section of the SAS provides monthly and year-to-date summary information by loan type for the reported period. It can be used to monitor loan volumes at the summary level (both booked and unbooked) for all loan types processed at COD.
- **Cash Detail** - This section of the SAS provides detail on cash transactions processed at COD during the reported period. This includes drawdowns, drawdown adjustments, or refunds of cash. If the monthly option is chosen, this section will only include cash transactions processed at COD during that month. This section will not include any cash transactions requested or sent during the month, but not processed on COD until after the last day of that month. If the Year-to-date option is chosen, the section will include cash transactions processed at COD from the start of the program year through the end date of the report.
- **Loan Detail, Loan Level** - This section of the SAS provides loan-level detail for disbursement transactions processed on COD through the end date of the report. Each transaction lists the total amount disbursed on that loan as of the end date of the report. This information can be used to perform an award-level comparison to your internal systems. This section is only available as year-to-date.
- **Loan Detail, Disbursement Activity Level** - This section of the SAS provides transaction-level detail for all disbursement and adjustment transactions processed on COD during the reported period. This section may have multiple transactions per award ID (as applicable). This section is available as monthly, year-to-date, or both. The monthly version will only show disbursements booked on COD during the reported month, but will include all unbooked disbursements (unbooked transactions are always year-to-date). Unbooked disbursements include any future dated transactions with disbursement dates falling after the end of the report. The year-to-date version of the report will show all disbursements, booked and unbooked, on COD as of the end date of the report. This information can be used to do a transaction-level comparison to the school's internal records, for either that month, or year-to-date.

Business Rules

1. The COD System generates the School Account Statement (SAS) on a monthly basis and automatically sends it to the school's SAIG mailbox.
2. Once a school has officially completed the closeout process for a specific program year, a school will no longer receive a SAS for that year. If the school's balances change after it has officially closed out, the school will resume receiving a Direct Loan SAS report to assist with the reconciliation process.
3. The SAS is generated on the first full weekend of the month and includes all data through the last day of the previous month. If the first day of the month falls on a Sunday, the SAS will run the following weekend. For example, the October SAS report, containing all data through October 31, will be run on the first full weekend of November.
4. Schools have the option to customize the SAS in a number of ways on the COD Web site.

- a. The following options can be set for the SAS on the SAS Options page on the COD Web site (Note: Each option is described in detail below):
 - i. Report Format
 - ii. Include Names of Borrowers
 - iii. Report Activity Type
 - iv. Sections of SAS to Receive
 - b. Schools may set or change their options at any time. Changes to SAS options will be applied to the next scheduled run of the report.
 - c. Schools new to the Direct Loan program or schools that have not changed their options on the COD Web site are set to the default values. Note: Default values are noted in parentheses below.
 - d. A school's SAS options for the current award year will be carried over to the next award year with New Award Year Setup. If a school wants different options for different award years, it must update its options separately for each award year. Schools should ensure they are in the correct program year in the Direct Loan SAS Report Options screen before updating their options.
 - e. Schools may receive more than one report for an award year depending on which options are selected.
5. The **Report Format** option allows the school to select the format of the SAS Report that is delivered to its SAIG mailbox.
- a. The choices for the Report Format option are:

 - a. The choices for the Report Activity Type option are:
 - i. Monthly (**Default**)
 - ii. Year-to-Date
 - iii. Both Monthly and Year-to-Date

Direct Loan Pending Disbursement Listing Report

The Pending Disbursement Listing Report shows all pending/anticipated disbursements (with Disbursement Release Indicator (DRI) = false) from your school for the reported period and award year. The reported period is a 45-day window into the future from the date of the report, or anything in the past. It will be generated if there is at least one anticipated/pending disbursement that is within the window of 6 days in the past or the 45 days into the future. This limits the frequency of the report showing same data repeatedly once the disbursement dates are in the past. There is also one final report run for all schools before the closeout deadline for DL.

The information displayed on this report can be used to:

- Determine your school's future funding needs.
 - Your school can identify pending disbursements on the report that fall within a period of immediate need (generally 3 business days), to calculate what amount to request in G5 (Advance Funded schools only). Keep in mind that any downward disbursement adjustments made since the last drawdown that have not resulted in a refund of cash back to the Department must be included in your calculation of funds needed by your school.
- To identify pending disbursements that should be reflected as actual disbursements (DRI = true).
 - If there are pending disbursements on the report with disbursement dates in the past or the immediate future, you can compare this information to internal school records to determine if any of these should be reflected as actual disbursements. If so, submit a Disbursement Release Indicator = true to COD as soon as possible.
- To identify awards or disbursements that need to be inactivated (reduced to \$0).
 - If a disbursement is listed on the report and the associated award should have been inactivated or the individual disbursement needs to be reduced to \$0, submit updated records to COD as soon as possible.

Business Rules

1. The Pending Disbursement Listing Report is automatically sent to the school's SAIG mailbox on a weekly basis.
2. The Pending Disbursement Listing Report is available via SAIG mailbox in the following formats, which can be selected via the COD Web site Report Selection screen under the "School" menu:
 - a. Comma-Delimited (message class DALC18OP)
 - b. Pipe-Delimited (message class DALC18OP)
 - c. Preformatted Text file (message class DIAA18OP)
 - d. The default format is Preformatted Text file. Schools may change their default options via the COD Web site.
 - e. Do Not Distribute - if this option is chosen, the Pending Disbursement Listing will not be generated and sent to your school's SAIG mailbox, although prior versions will still be available for viewing on the COD Web site. You can select the Do Not Distribute option from the COD Web site Report Selection screen at any time. Keep in mind that, if you choose not to receive a report, COD will not be able to send any missed reports for your school at a later time. If you update your options to begin receiving a report, you will only receive reports generated from that point forward.
3. The Pending Disbursement Listing Report is available via COD Web site in the following formats:
 - a. Comma-Delimited (CSV)

Pipe-Delimited Layout

The pipe-delimited report layout is the same as the comma-delimited report layout (except the comma-delimited report utilizes text qualifiers (") around each field). The commas (,) in the valid field content are replaced with pipes (|) in the pipe-delimited report.

Format Options

Previous versions of this report will also be available on the COD Reporting Web site.

- b. The Pending Disbursement List available on the COD Web site is the report most recently generated by COD.
4. The report will generate for the current and previous two Award Years. Example: for Award Year 2017-2018, a school will receive a report for Award Years 2017-2018, 2016-2017, and 2015-2016.
5. Although the Pending Disbursement List is a weekly report, the report will not be generated for a given school unless the school has one or more disbursements meeting the following criteria:
 - a. Anticipated Direct Loan disbursements (DRI = false) with a disbursement date up to 6 days before or 45 days after the report generation date
6. If the weekly report generation criteria are met, a Pending Disbursement List report will be generated containing all Direct Loan anticipated disbursements (DRI = false) for the reported Award Year with a disbursement date less than or equal to 45 days from today.
7. An annual Pending Disbursement List report will be sent to schools up to 6 days before or on the Latest Date to Accept a Common Record for the Award Year, regardless of whether the weekly report generation criteria are met or not. This report will contain all anticipated Direct Loan disbursements (DRI = false) for that Award Year with disbursement dates any date in the past.

Direct Loan Booking Warning Report

The Direct Loan Booking Warning Report lists unbooked loans for which the COD System has not received the required elements for “booking” a loan. The items needed to book a Direct Loan are included in the Business Rules. Even though this report uses a 30-day warning, current regulations require elements to book a loan be submitted to the Department within 15 days of the initial actual disbursement date. Any missing items will result in the loan remaining unbooked, which may be in violation of this 15-day reporting requirement. Unbooked awards are listed on the report if any activity occurred on the award (award, MPN, or initial actual disbursement are accepted) during the reported period. The reported period is defaulted to a 90-day period beginning 120 days prior to the report run date. Awards remain on the report for 90 days, unless the award books or becomes inactive. For example, if an award is accepted on 10/15/2017 without a promissory note or a disbursement, it will not appear on the November 2017 Direct Loan Booking Warning Report (30 days have not passed since the award was accepted), but it will appear on the November, December, and January reports if the award remains unbooked. Inactive loans (award amount and disbursements = \$0) will not appear on the report. Promissory notes listed on the report are unlinked as of the report end date. Unlinked promissory notes will appear on the report only if the promissory note was received within the reporting period, a 30-day period beginning 30 days prior to the report run date.

The Direct Loan Booking Warning Report can be used to:

- Identify the missing pieces necessary for booking the loan. This information is contained in the Loans Pending Booking section of the report.
 - Fields listed on the report indicate which piece(s) of data are still needed by the Department to book the loan (any missing data will display a "Y" in the corresponding Data Needed column).
 - For an award to be listed on the Direct Loan Booking Warning report, the award must be accepted on COD. Therefore, you will never see a "Y" in the Data Needed column under "Loan."
- Identify MPNs awaiting awards. This information is included in the Promissory Notes Without Origination Records section of the report.
 - The report will display all unlinked MPNs accepted by COD from your school during the reported period.
- Reconcile to your school's internal records of unbooked awards.
 - Schools can run internal reports of unbooked awards and match this against the Direct Loan Booking Warning Report. If there are awards on the Direct Loan Booking Warning Report, showing as unbooked that are booked in the school's internal records, the school should research the outstanding piece needed to book the loan, as listed on the Direct Loan Booking Warning report.
- Monitor compliance with current reporting requirements.
 - If an award is listed on the Direct Loan Booking Warning Report and there is an actual disbursement on file (data needed = N for Disb column), your school is out of compliance with the 15-day reporting requirement. If an award is listed on the report and there is not an actual disbursement on file (data needed = Y for Disb column), and internal school records show that there was an actual disbursement made on this award, submit the disbursement immediately to COD. If it is >30 days after the date the actual disbursement was made, your school is out of compliance.

The Direct Loan Booking Warning Report does not provide any information regarding disbursement amounts or any subsequent disbursements made to a loan that also will need to book. For this type of information, you will need to consult school records or the School Account Statement (SAS). Also, since awards with actual disbursements will drop off the Direct Loan Booking Warning Report after 90 days, it is important to reference the SAS for a complete record of unbooked loans with actual disbursements accepted on COD.

Schools can view Pending Disbursements for both first and subsequent disbursements via the Action Queue in COD.

Business Rules

1. The Direct Loan Booking Warning report displays the missing components that are necessary for the loan to book. The necessary items for a loan to be booked are:
 - a. Accepted award/origination record
 - b. Accepted MPN
 - c. Accepted first disbursement record
 - d. Accepted credit decision (for PLUS only)
2. Loans with Award Amounts = \$0 do not display on this report.
3. Loans that display on this report without a promissory note accepted and an actual disbursement are removed from the report after 90 days.
4. The Direct Loan Booking Warning Report is automatically sent to the school's SAIG mailbox on a monthly basis.
5. The Direct Loan Booking Warning Report is available via SAIG mailbox in the following formats, which can be selected via the COD Web site Report Selection screen under the "School" menu:
 - a. Comma-Delimited (message class DIWC18OP)
 - b. Pipe-Delimited (message class DIWC18OP)
 - c. Preformatted Text file (message class DIWR18OP)
 - d. The default format is Preformatted Text file. Schools may change their default options on the COD Web site.
 - e. Do Not Distribute - if this option is chosen, the Direct Loan Booking Warning Report will not be generated and sent to your school's SAIG mailbox, although prior versions will still be available for viewing on the COD Web site. You can select the Do Not Distribute option from the COD Web site Report Selection screen at any time. Keep in mind that, if you choose not to receive a report, COD will not be able to send any missed reports for your school at a later time. If you update your options to begin receiving a report, you will only receive reports generated from that point forward.
6. The Direct Loan Booking Warning Report is available via the COD Web site in the following formats:
 - a. Comma-Delimited (CSV)
 - b. The Direct Loan Booking Warning Report that is available on the COD Reporting Web site is the version most recently generated by COD.
7. The report will generate for the current and previous two Award Years. Example: for Award Year 2017-2018, a school will receive a report for Award Years 2015-2016, 2016-2017, and 2017-2018.
8. Although the Direct Loan Booking Warning Report is generated monthly, if there is no data for the report on a given month, the report will not be sent to the schools' SAIG mailbox or made available via the COD Reporting Web site.

Rejected Credit Decisions

Beginning in Award Year 2012-2013, PLUS awards with denied credit will be built on the system.

Pipe-Delimited Layout

The pipe-delimited report layout is the same as the comma-delimited report layout (except the comma-delimited report utilizes text qualifiers ("") around each field). The commas (,) in the valid field content are replaced with pipes (|) in the pipe-delimited report.

Format Options

Previous versions of this report will also be available on the COD Reporting Web site.

Direct Loan Inactive Loans Report

The Inactive Loan Report lists all Direct Loan Awards that have been inactivated (the award and any pending or actual disbursements have been adjusted to \$0) by the school for the reporting period. The reported period is a 30 day period, as shown at the top of the report, and this will be the calendar month prior to the run date of the report.

This report can be used to

- Confirm that only the correct loans have been made inactive
 - Schools can reconcile this report with internal school records to verify that all awards needing to be made inactive have been processed at COD.
- Identify awards that may have dropped off the Direct Loan Booking Warning Report
 - Loans will drop off the Direct Loan Booking Warning Report when they are inactivated.
 - If you expect an award to be listed on the Direct Loan Booking Warning Report and it is not, you may want to research if it now appears on the Inactive Loans report, or if it has been booked since the last report.

Business Rules

1. The Inactive Loans Report is automatically sent to the school's SAIG mailbox on a monthly basis.
2. The Inactive Loans Report is available via the SAIG mailbox in the following formats, which can be selected via the COD Web site Report Selection screen under the "School" menu:
 - a. Comma-Delimited (message class INACCDOP)
 - b. Pipe-Delimited (message class INACCDOP)
 - c. Preformatted Text file (message class INACPFOP)
 - d. The default format is Preformatted Text file. Schools may change their default options on the COD Web site.
 - e. Do Not Distribute - if this option is chosen, the Inactive Loans Report will not be generated and sent to your school's SAIG mailbox, although prior versions will still be available for viewing on the COD Web site. You can select the Do Not Distribute option from the COD Web site Report Selection screen at any time. Keep in mind that, if you choose not to receive a report, COD will not be able to send any missed reports for your school at a later time. If you update your options to begin receiving a report, you will only receive reports generated from that point forward.
3. The Inactive Loans Report is available via the COD Web site in the following formats:
 - a. Comma-Delimited (CSV)
 - b. The Inactive Loans Report available on the COD Reporting Web site is the report most recently generated by COD.
4. Although the Inactive Loans Report is generated monthly, if there is no data for the report on a given month, the report will not be sent to the schools' SAIG mailbox or made available via the COD Reporting Web site.

Pipe-Delimited Layout

The pipe-delimited report layout is the same as the comma-delimited report layout (except the comma-delimited report utilizes text qualifiers (") around each field). The commas (,) in the valid field content are replaced with pipes (|) in the pipe-delimited report.

Format Options

Previous versions of this report will also be available on the COD Reporting Web site.

Direct Loan Duplicate Student Borrower Report

The Duplicate Student Borrower Report lists the student borrowers for which the COD System has accepted multiple Direct Subsidized and/or Unsubsidized Award records with overlapping academic years. This report assists in identifying subsequent award or disbursement records that may reject due to exceeding the annual loan limits. This report does NOT relieve the school of its responsibility to monitor all loan activity for a student through the NSLDS processes.

This information can be used to:

- Identify potential overaward situations.
 - Use data on the report to identify when multiple sub/unsub awards have been originated with overlapping academic years, which could result in an overaward situation.
 - If any of the listed awards at your school will not be disbursed, or will only be partially disbursed, reduce the award by the applicable amount.
 - Monitor remaining awards for students listed on the report and any associated disbursements for any rejects due to overaward situations.

Business Rules

1. The Duplicate Student Borrower Report is automatically sent to the school's SAIG mailbox on a monthly basis.
2. The Duplicate Student Borrower Report is available via SAIG mailbox in the following formats, which can be selected via the COD Web site Report Selection screen under the "School" menu:

 - b. Pipe-Delimited (message class DUPLCDOP)
 - c. Preformatted Text file (message class DUPLPFOP)

You can select the Do Not Distribute option from the COD Web site Report Selection screen at any time. Keep in mind that, if you choose not to receive a report, COD will not be able to send any missed reports for your school at a later time. The Duplicate Student Borrower Report lists student borrowers for which COD has accepted multiple Direct Subsidized and/or Unsubsidized common records. The list indicates other schools that have submitted a common record for the same borrower who may be attending your school. This report assists in identifying subsequent loan origination records that may reject due to exceeding the annual loan limits. This report does NOT relieve the school of its responsibility to monitor all loan activity (including FFEL) for a student through the Financial Aid Transcript and NSLDS processes. Note: SUP = Subsidized Usage Period.

Direct Loan SSN/Name/Date of Birth Change Report

The SSN/Name/Date of Birth Change Report lists students/borrowers who have had identifier changes (including changes to SSN, name, and date of birth) during the reporting period, which is 90 days prior to the report end date. A student/borrower with an identifier change will be included on your school's report if that person was associated with your school for any of the 3 most recent award years. The change may have been initiated by: a) your school, b) another school associated with that borrower. The report detail provides information on the school submitting the change, the field changed, the old value, the new value, and the date the change was accepted, to assist your school with researching any related identifier issues.

The information on this report can be used to:

- Confirm identifier changes sent by your school have been accepted properly on COD.
- Update your records (where appropriate).
 - Because your school may not have initiated the change, it is important to monitor the information on this report for any updated identifier information for your students and make changes to your records where appropriate. This will help you prevent future rejects based on old identifier information.
 - If your school has more current information on the student's identifiers, you will need to ensure this information is properly documented and updated on COD.

Business Rules:

1. The SSN/Name/Date of Birth Change Report is automatically sent to the school's SAIG mailbox on a weekly basis, when a change is initiated.
2. The SSN/Name/Date of Birth Change Report is available via SAIG in the following formats, which can be selected via the COD Web site Report Selection screen under the "School" menu:
 - a. Comma-Delimited (message class SNDCCDOP)
 - b. Pipe-Delimited (message class SNDCCDOP)
 - c. Preformatted Text file (message class SNDPCFOP)
 - d. The default format is Preformatted Text file.
 - e. Do Not Distribute - if this option is chosen, the SSN/Name/Date of Birth Change Report will not be generated and sent to your school's SAIG mailbox, although prior versions will still be available for viewing on the COD Web site. You can select the Do Not Distribute option from the COD Web site Report Selection screen at any time. Keep in mind that, if you choose not to receive a report, COD will not be able to send any missed reports for your school at a later time. If you update your options to begin receiving a report, you will only receive reports generated from that point forward.
3. The SSN/Name/Date of Birth Change Report is available via the COD Web site in the following formats:
 - a. Comma-Delimited (CSV)
 - b. The SSN/Name/Date of Birth Change Report that is available on the COD Reporting Web site is the version most recently generated by COD.
4. Although the SSN/Name/Date of Birth Change Report is generated weekly, if there is no data for the report on a given week, the report will not be sent to the schools' SAIG mailbox or made available via the COD Web site.

Pipe-Delimited Layout

The pipe-delimited report layout is the same as the comma-delimited report layout (except the comma-delimited report utilizes text qualifiers ("") around each field). The commas (,) in the valid field content are replaced with pipes (|) in the pipe-delimited report.

Format Options

Previous versions of this report will also be available on the COD Reporting Web site.

Direct Loan Rebuild File

An electronic rebuild file can be requested to rebuild a school's lost or corrupted Direct Loan Database or to recreate specific student records. It may be imported into Direct Loan Tools to rebuild an EDEExpress database or into a school's vendor or mainframe system. For more information on the rebuild functionality in DL Tools, refer to Volume IV, Section 1 of this Technical Reference.

Beginning in Summer 2015, the Direct Loan Rebuild file will be updated to reflect the new elements being returned in the Response block of PLUS awards with the schema version 4.0b. Notification will go out when the COD Technical Reference has been updated with these changes.

Date Range Option

The date range option selects awards accepted within the date range and provides all disbursement transactions, including disbursement adjustments, related to these loans.

- A PLUS loan linked with an Endorser.

MPNs will not appear on the Expired MPN Report if they have expired due to Disbursement inactivity more than 30 days prior to the date of the report generation.

This report can be used to:

- Identify when a new MPN may be needed for an award at your school
 - If an MPN has expired, you cannot use that MPN to link to a new, unlinked award at your school that will be disbursed after the expiration date. You must obtain a new, signed promissory note to book additional loans.
 - If an MPN has expired that is already linked to an award at your school, no further action is necessary for that award. Any disbursements made to the linked award will book using the existing promissory note.

COD School Monitoring Report

The COD School Monitoring report assists schools with the financial aid disbursement process by highlighting three conditions;

1. Unsubstantiated Cash
 - a. Means your school has received cash for one or more Title IV Programs, however, to date a sufficient number of actual disbursement records to substantiate these amounts have not been received.
2. POP Situations – New Summary Format
 - a. Federal Pell Grant recipients are allowed to receive a maximum of one full Scheduled Pell Grant during an award year. The COD System is programmed to calculate the percentage of Scheduled Pell Grant used (based on Section 690.65 of the regulations) each time a school reports a disbursement to the student. Any amount exceeding 100 percent of a full Scheduled Pell Grant represents an overaward situation. The COD System allows a potential overaward situation to exist for 30 days and sends a warning to all schools involved before reducing all of the students Pell Grant disbursements for that award year to zero.
3. 30-Day Disbursement Reporting – Addition of Award Year Totals
 - a. Where one or more funded disbursements are accepted more than 30 days after the *Actual Disbursement Date*.

This report is an important tool to help schools identify potential issues in timely reporting of data to the Department so they can better meet regulatory and reporting requirements. Reviewing this report should be part of your weekly internal procedures.

Business Rules

1. The COD School Monitoring report is automatically sent to a school's SAIG mailbox and COD Newsbox, on the COD Reporting Web site, on a weekly basis, when any of the three conditions is present: Unsubstantiated Cash, POP Situations and 30-Day Disbursement Reporting.
2. The COD School Monitoring report is available via SAIG in the following format:
 - i. Preformatted Text file (message class SCHMONOP)
3. The COD School Monitoring report is available via your school's Newsbox, on the COD Reporting Web site, in the following format:
 - i. PDF
 - ii. The COD School Monitoring report available in your school's Newsbox is the one most recently generated by COD.
4. Although the COD School Monitoring report is generated weekly, if there is no data for the report on a given week, the report will not be sent to schools' SAIG mailboxes or made available via your school's Newsbox.
5. The COD School Monitoring report follows the same header and trailer layout as the Direct Loan Batch layout. See below for more details.

Note: Schools must report disbursements within 15 days according to the regulations.

COD School Monitoring

School OPE ID: 00014700

Run Date: 9/27/2016

Please note that one or more of the following conditions have occurred at your school:

- Unsubstantiated Cash
- Pell Grant Potential Overaward Process (POP) Situations
- 30-Day Disbursement Reporting

Unsubstantiated Cash

Regulations require schools to submit disbursement records and disbursement adjustment records within certain timeframes (For Pell Grant the timeframe is published annually in the Federal Register). Additionally, the cash management regulations require schools to return excess cash (i.e., refund of cash) within certain timeframes. You can review your school's cash balances on the COD Web site or the G5 Web site.

Issue: The COD System reflects that your school has received cash for one or more Title IV Programs; however, to date, a sufficient number of student actual disbursement records to substantiate these amounts have not been received. This is known as "unsubstantiated cash."

Note: Due to a lag in the receipt of transactions between COD and G5, it is possible the summaries in this report may not reflect your school's most recent refunds.

Action: To prevent delays in receiving additional cash, resolve your school's unsubstantiated cash by submitting disbursement records to the COD System or returning cash to the Department of Education.

POP Situations

When more than one Attended School reports disbursements for a student, the COD System checks to make sure that the student has not received more than 100% of his or her eligibility for a Pell Grant for a given award year. If the COD System receives disbursement information that places the student in a situation in which he or she has received more than 100% of the student's Total Eligibility Used, the student has entered a Potential Overaward Process (POP) situation.

Issue: To date, the COD System has not received or accepted disbursement adjustments to correct some students' potential overaward.

Action: The number of students in a POP situation is listed below. Details on these students can be retrieved from the Multiple Reporting Record (MRR) file sent to your school's Student Aid Internet Gateway (SAIG) mailbox advising your school of a POP situation. The Pell POP report, generated weekly, can also be retrieved from your school's SAIG mailbox, and via the COD Reporting Web site in your school's newsbox. Use this information to determine the student accounts that should be reviewed and adjusted, as appropriate.

Regulatory Reference: 34 CFR 690.65 provides the basis for determining a student's remaining eligibility when another school has disbursed Pell Grant funds to the student.

30-Day Disbursement Reporting

Regulations require schools to submit disbursement records and disbursement adjustment within certain timeframes (For Pell Grant the timeframe is published annually in the Federal Register).

Issue: COD System records reflect awards with funded disbursements that were not accepted within 30 days of the disbursement date. The weekly and award year summaries below provide information accepted by the COD System within the past week, for each award year, where one or more funded disbursements were accepted more than 30 days after the actual disbursement date.

Action: Review the 30-day disbursement reporting requirements and make adjustments to your reporting processes for future disbursements.
